

SIDDHESH MOON

(+91) 8010347901 | siddheshmoon908@gmail.com | [LinkedIn](#) | [Website](#)

Skills:-

AI Engineering:- Python, LLMs, RAG, AI Agents, LangChain, LangGraph, PyTorch, TensorFlow, OpenCV, NLP, Vector DB, Docker, Git.
Full Stack Development:- TypeScript, Next.js, React.js, Node.js, Tailwind CSS, REST APIs, Auth.js, Redis, Prisma ORM, WebSockets.
Analysis Tools: PowerBI, QuickSight, Advance MS Excel, SQL, NoSQL, PostgreSQL
Project & Stakeholder Mgmt: Project Lifecycle Management, Cross-functional Coordination, KPI Tracking, Stakeholder Reporting.
Soft Skills: Team Leadership, Ownership & Accountability, Time Management, Problem Solving, Adaptability, Team Mentoring

PROFESSIONAL EXPERIENCE:-

Amazon.com Inc | (Operations Analyst Intern)

(March 2026 - May 2026)
Mumbai, Maharashtra, India

- Managed end-to-end operational workflows to achieve **99% targeted SLA compliance** and maintaining high process accuracy.
- Conducted **data analysis and root cause investigations** to reduce operational Dwell handling by 10 → 6%. By collaborating with multiple teams to improve complete operational workflow.
- Utilized advanced Excel** (Pivot Tables, Lookups, Dashboards) to analyze 14000+ Daily Handling, identify trends, and support **business decisions**.
- Monitored and analyzed key operational metrics, proactively identifying performance gaps and implementing corrective actions that improved **productivity, quality, and SLA adherence**.
- Created **KPI dashboards and MIS reports** for reporting to Leaderships and Internal Stakeholders.
- Analyzed operational and performance data using Python and Advance Excel, identifying process bottlenecks and contributing to a **improvement in workflow efficiency** by reducing 16% runtime through data-driven workload balancing and process optimization.
- Supported capacity planning and workload distribution to **optimize resource utilization** during peak and non-peak hours

Barclays | (Data Analyst Intern)

(May 2025 - July 2025)
Pune, Maharashtra, India

- Analyzed and validated large datasets** containing 50,000+ records using SQL and Excel, improving data accuracy by 95 -> 98% and supporting business decision-making, enabling real-time performance tracking for business operations.
- Developed and automated KPI dashboards and MIS reports** using Excel, SQL, and data visualization tools to deliver actionable insights for process improvement initiatives.
- Wrote SQL queries for data extraction, transformation, and analysis, enabling faster **identification of trends and operational insights**.
- Utilized **Excel functions** including Pivot Tables, XLOOKUP, INDEX-MATCH, and advanced formulas to analyze and visualize operational data.
- Supported **process automation initiatives** using Python, reducing manual effort by 15% and improving overall reporting efficiency.
- Monitored and analyzed key operational metrics to identify performance gaps, recommend corrective actions, and support **continuous process improvement initiatives**.

Education:-

(July 2022 - June 2026)

MIT University, Pune, Maharashtra
— Bachelor of Technology, CGPA:- 8.1

Projects:-

Automated Reporting Tool: Eliminated manual reporting by developing an AI-powered platform that automates data processing, analysis, and report generation. ([link](#))

AI Crop Health Monitoring: Addressed delayed crop disease detection by building a computer vision system that analyzes field images and provides AI-driven crop health insights. ([link](#))

Investment Insights using AI: Simplified investment decision-making by developing an AI-powered platform that analyzes market trends, assesses portfolio risk, and delivers personalized investment recommendations. ([link](#))

Certificates:-

AI Engineering Certificate:- Complete AI Engineer Training, Python, NLP, Transformers, LLMs, LangChain, Hugging Face, APIs ([link](#))

Data Science Certificate:- Artificial Neural Networks (ANN),TensorFlow, Keras, PyTorch, Python, Computer Vision, Model Development, Data Preprocessing, and AWS. ([link](#))

Full Stack Development:- HTML, CSS, Next.js, Typescript / Javascript, Node.js, Express.js, Prisma, React, PostgreSQL. ([link](#))
